### Highlights

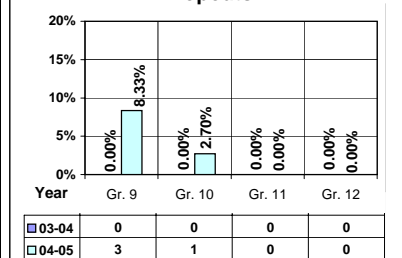

Snake River School District developed a new Strategic Plan this year. A 25-member task force identified strengths, critical issues, and long-term needs of the district. The task force listed a clear focus and high expectations for students; adequate facilities, community involvement, school safety, student behavior, professional technical programs, quality teachers, and goal-oriented leadership as district strengths. Four goals were established: 1) Set high expectations for all students and staff; 2) Close the achievement gap; 3) Promote fiscal planning and operational efficiency; and, 4) Strengthen school-community relations. The Strategic Planning Committee created key strategies for each of the goals and set targets to measure progress each year.

### Progress Towards Meeting Goals

#### 2004-05 Goals

#### Progress

#### Board Goal #1 - Student Achievement

Student academic achievement is consistently monitored through established state and local measures and teachers are trained in the use of data to make curriculum and instructional decisions that impact student achievement. Each month the Board recognizes the academic and extra-curricular achievement of the students.

#### Board Goals #2 - Teamwork

Quality Improvement Leaders at each grade level and secondary department led faculty teams in weekly collaboration meetings to develop action plans and review results. Many district committees are functioning well to address a variety of issues including public information, employee benefits, budget, district safety, extracurricular activities, and facility planning.

#### Board Goal #3 - Financial

Declining student enrollment continues to require reductions in expenditures and careful allocation of resources. The district sought funding through grant opportunities and received money for an innovative technology project and Parents As Teachers.

#### Board Goal #4 - Advocacy

A commitment to increase communication between the district and community continues to build support for the school system. The district completed a technology infrastructure upgrade to ensure students equal access to quality learning opportunities.
